

## Guidance on Trademark Application in Uzbekistan

### I. Overview

### II. Application Documents Requested

list of the goods and/or services;

representation of the trade mark;

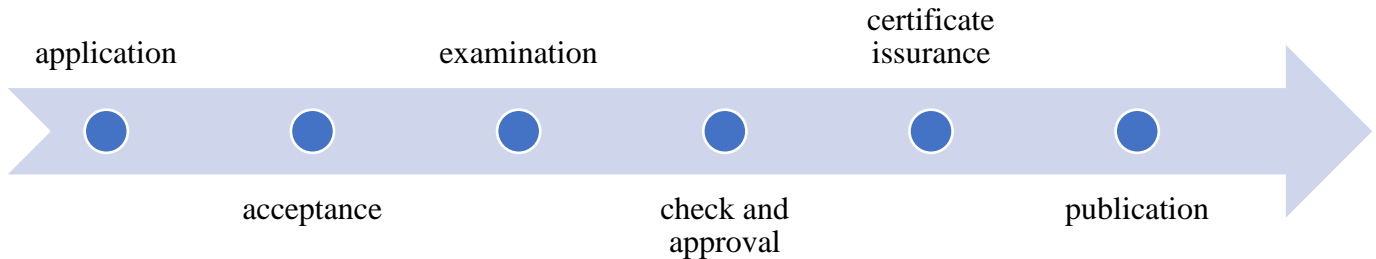

request to register a trademark;

power of attorney;

priority document if applicable.

### III. Application Process

### IV. Validity Term

- The term of the registration of the trademark is **ten years** starting from the date of application.
- The validity period of a trademark registration shall be renewed every time for ten years at the request of the owner filed during the last year of its validity.

### VI. Note

- There is **no official procedure for filing oppositions in Uzbekistan**. However, third party observations against trademark registration may be filed during the whole examination procedure before the decision is taken by the Patent Office.
- The timing of revocation during the subsequent enforcement of rights is of critical importance. In general:
  - A revocation action based on relative grounds must be submitted to the Appeal Committee within five years following the publication date.
  - A revocation action based on absolute grounds may be submitted to the Appeal Committee at any time after registration.
  - Registration of the trademark in Uzbekistan may be cancelled if it has not been used for consecutive 3 years from the date of trademark registration.
